

We have a range of ways to help us at Theale Green School including our latest projects and campaigns on LetsLocalise.

#### Oxford Paperback Dictionary & Thesaurus

Across Theale Green School, we take improving children's literacy very seriously. A key aspect of this is the size and utilisation of vocabulary, both written and oral. Dictionaries and thesauruses have a vital role to play in this, allowing students to look up and define words that they do not understand as well as challenging themselves to learn new vocabulary. Donations will help ensure that both dictionaries and thesauruses are available in every classroom for students to use, regardless of subject. We will also accept resources, new or second hand and not necessarily the Oxford version. We welcome all support.

#### Tupperware boxes for Food Technology

Food Technology is needing Tupperware boxes, plastic take away boxes or chocolate boxes e.g. celebrations that you are keen to get rid of. Please can students pass these to Hannah Carvey or Sam Cartland.

We are in desperate need of lots for food technology as there is always someone who forgets a box to take their food home in. Thank you. <https://www.letslocalise.co.uk/par-event-detail?eventId=11690>

#### Science Labs & Makerspaces - Paint request – Campaign1

As part of some exciting work at Theale Green School, we are converting two of the old science labs into Makerspaces. Makerspaces are areas in which students can collaborate, investigate and problem solve, helping them consolidate and apply their learning from the classroom into real world situations. We are hoping that they will be up and running by September for use by our students. We are looking for donations of White Wall Paint & some Coo-Var Pro-Netic Water Based Magnetic Black Chalkboard Paint, if you are able to help with donating these items we would be most grateful. <https://www.letslocalise.co.uk/par-event-detail?eventId=11692>

#### Science Labs & Makerspace resources – Campaign 2 & 3

As part of some exciting work at Theale Green School, we are converting two of the old science labs into Makerspaces. Makerspaces are areas in which students can collaborate, investigate and problem solve, helping them consolidate and apply their learning from the classroom into real world situations. We are hoping that they will be up and running by September for use by our students. We are looking for donations or funding for, Doodle Pens, Makedo Kits, 3D Printer, Laser Cutter, Lego and Kinex. If you would like to help out with this project, funding can be done via LetsLocalise or donations of resources can be delivered to school reception. Thank you for your time.

#### Do You Have Carpentry Skills?

The Art & Technology Department have been working with local volunteers for many years and we are incredibly grateful for their support and guidance. Currently we have a recently retired professional photographer working alongside our students. We are now looking for some additional support with woodworking and our woodworking machines. In return we would be happy to offer you the use of our workshops along with full Health & Safety Training. If you're interested and would like to find out more, please sign up to this Pledge a Minute via LetsLocalise. We look forward to hearing from you.

#### A spot of gardening

The Technology department is looking to establish a school garden because it engages students in the natural world and opens up opportunities for our students in the horticultural industry. There are many ways you can help. Could you volunteer some time to help, are you waiting for an allotment, we might be able to help out with this in return for your support. We are also looking for any gardening equipment from an old spade to an old Greenhouse and all things in between. Seeds would also help too not to mention storage solutions and anything else you think might help set up a garden from scratch. Please sign up via LetsLocalise.

#### Do you have a Rotavator?

As part of our efforts to set up a school garden we need to prepare the ground. Do you have access to a rotavator? Do you know any gardening teams or local businesses that might be able to volunteer their time to clearing the long grass for our veg beds? If you are able to help out with this please sign up via LetsLocalise. We look forward to hearing from you.
